

All About Dance! by Kristen

Open Auditions 2008-2009 Competition Team

Our Competition Philosophy

An important objective of each of our competition team instructors is to create a positive learning environment with high, yet not excessive expectations that challenge team members to continually strive for her personal best. We place emphasis on commitment, hard work, camaraderie among team members, prompt and regular attendance, and positive representation of our studio - thus giving our competition member a "taste" of the professional world and its similar expectations.

In doing so, we hope to provide our teams with the discipline and heart to perform successfully at regional and national competitions. While we hope that our teams are able to walk away from each competition pleased with the outcome of their performances, we do not measure success in the tangible form of trophies, medals or awards. Rather, we look at the intangible results of the competition experience, which we feel are among the highest of awards. Such results are the ultimate goal of our competition program- a sense of accomplishment from a season of hard work and improvement, the formation of long lasting friendships and a "together-we-can" attitude, the ability to gain further performance experience, and the heightened desire to continue to improve as an individual and as a team.

All students of dance are welcomed and encouraged to participate in our "Open Audition Workshop". Students ages 7-18 years are invited to audition for a position on the Tap, Jazz & Small Group teams for next the 2009 season. (Ages as of February 15th, 2009.) All 2009 Jazz or Tap team members will be required to attend the 2008 AADBK Summer Dance Program in their competition subject(s) and ballet as an additional summer class is highly recommended. See the blue summer registration form for summer registration information. More specific information about competition rules, required classes, guidelines and fees for entire season will be given at a later date or e-mail any questions to allaboutdance@sbcglobal.net.
